COLORED-BODY PORCELAIN TILES - RECTIFIED, ONE CALIBER

Colored-body porcelain stoneware tiles are produced minimizing the color difference between the glaze and the body. Nevertheless, the design is visible only on the surface.

PACKAGING

TECHNICAL FEATURE       ASTM TEST VALUE REQUIRED ANSI A 137.1-2012 CAESAR AVERAGE VALUE

Facial dimension           ASTM C-499   ±0,5 % ≤ ±2,0 mm

Thickness                 ASTM C-499   0.040 inch max (1 mm)

Wedging                   ASTM C-502   ≤ 0.5% (+/- 2 mm)

Warpage-diagonal          ASTM C-485   ≤ 0.5% (+/- 2 mm)

Warpage-edge (for tile ≤610x610 mm)     ASTM C-485   ≤ 0.40% or ±1.3 mm

Warpage-edge (for tile >610x610 mm)     ASTM C-485   ≤ 0.40% or ±1.8 mm

Water absorption           ASTM C-373   ≤ 0.5% Passed “Impervious tiles” Class P1

Breaking strength         ASTM C-648   ≥ 250 lbs (>=1113 N) ≥400 lbs

Freeze-thaw               ASTM C-1026   No damages In accordance

Chemical resistance       ASTM C-650   As reported Unaffected

MOHS hardness             As reported Coat 6

BOOT 3000 DCDF             BOOT 3000   0.42 In accordance

Average value referred to the last two years of production and related to the matt finish of the product.

Values relate to the matt finish of the product and to tests carried out by certified external laboratories, whose results are available upon request at Headoffice.

Be sure to use the same caliber tiles.

COLORED-BODY PORCELAIN TILES - RECTIFIED, ONE CALIBER

CLASSIFICATION IN ACCORDANCE WITH ANSI A137.1: 2012 (P1 CLASS).

COLORED-BODY PORCELAIN TILES - RECTIFIED, ONE CALIBER

Colored-body porcelain stoneware tiles are produced minimizing the color difference between the glaze and the body. Nevertheless, the design is visible only on the surface.

Uniform Appearance

Differences among pieces from the same production run are minimal.

Slight Variation

Clearly distinguishable texture and/or pattern within similar colors.

Moderate Variation

While the colors and/or textures present on a single piece of tile may vary slightly, these variations should not be considered unacceptable. It is recommended that the range be viewed before selection.

Substantial Variation

Random color and/or texture differences from tile to tile, so that one tile may have totally different colors and/or textures from that on other tiles. Thus, the final installation will be unique. It is recommended that the range be viewed before selection.

Very Uniform appearance

Pieces of the same shade value are very uniform and smooth in texture. They can be measured for small color differences and are in compliance with the color uniformity requirements of tables 6-10 (ANSI A137.1-2012)

Color reproductions may vary from actual products.

Color discrepancies may vary from actual products.

Caesar reserves the right to modify the products illustrated in this catalogue for reasons of production or to improve quality. Samples are purely indicative. Packaging and weights may vary for production reasons. Contact our sales department when ordering.

In case of running pattern installation, Caesar recommends a maximum 33% offset.

In accordance to ANSI A 137.1-2012

Caesar warrants that our products meet or exceed the requirements of ANSI, specification ANSI A137.1: 2012, as shown in our Tile Performance Data sheets.

Color discrepancies may vary from actual products.

* Due to the intrinsic nature of porcelain stoneware tiles, please note that the coefficient of friction may vary within the same production lot or from one production lot to the other. Caesar products can become slippery when wet. We recommend to always keep the surface dry.
