Florida Tile is pleased to announce its newest line, Aventis. Inspired by the gritty urban landscape, Aventis defines contemporary design. With a 6 color palette of strong Grey and Olive tones, these colors will bring a cool minimal look to your modern space. This Through Body Floor and Wall Tile is a concrete look that both looks the part and performs to the highest industrial standard of this age-old building material.

Created with the latest technology in technical porcelain production, the minimalist nature of the look enhances the complexity of its design. Each of the six colors is a unique blending of base color with a stain that adds contrast by using an application that allows the slightest shimmer of reflection. Monochromatic in their overall tone, the colors range from a Creamy Beige (Cotton) to a Dark Black (Eclipse).

The smooth surface combined with the soft but tactile touch creates a harmonious texture that will engage any designer yet allow for easy routine cleaning. With the large scale commercial or contemporary residential installations in mind, sizes available are 12x24 and 24x24 all rectified. Trim is available in 3x12 bullnose and decorative mosaics come in an M12, in all colors.

Aventis is Porcelain Tile and Greenguard certified, recommended for all residential and commercial floor wall and countertop installations.
